

Dear <<First Name>>,

Hope you are staying safe.

At Satya Special School, we have been hard at work juggling various things: Relief for the COVID second wave, trying to keep our children occupied and employed, and with a few other projects!

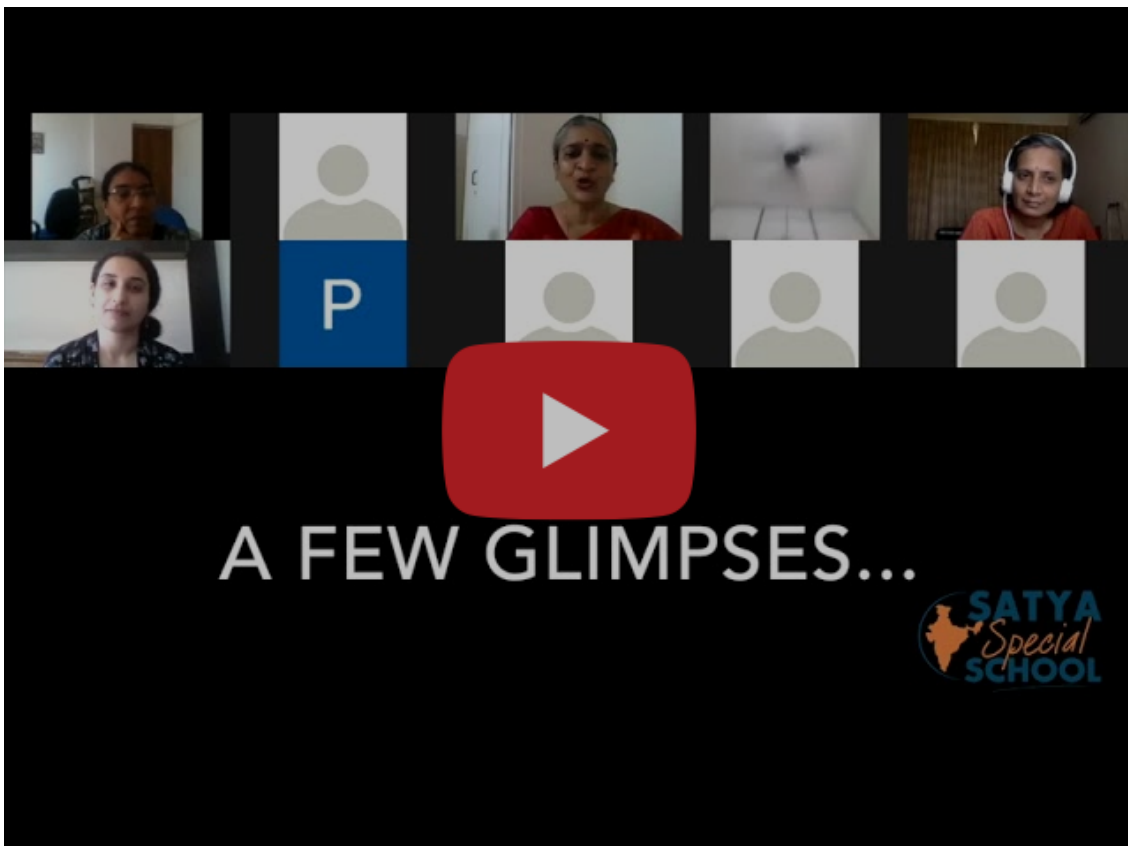

If you're short on time, just view the video.

Take care.

Chitra Shah,

Director, Satya Special School

Video Update on Satya Happenings

A brief update of the highlights of activities at Satya Special School since April.

We dove right into relief mode as soon as the second wave of COVID hit. Since April 1, we have distributed

- Nearly **25,000 kgs dry ration**
- **250 activity kits**, to keep children occupied
- **1750 kgs of vegetables**

We have also vaccinated:

95% of Satya Staff

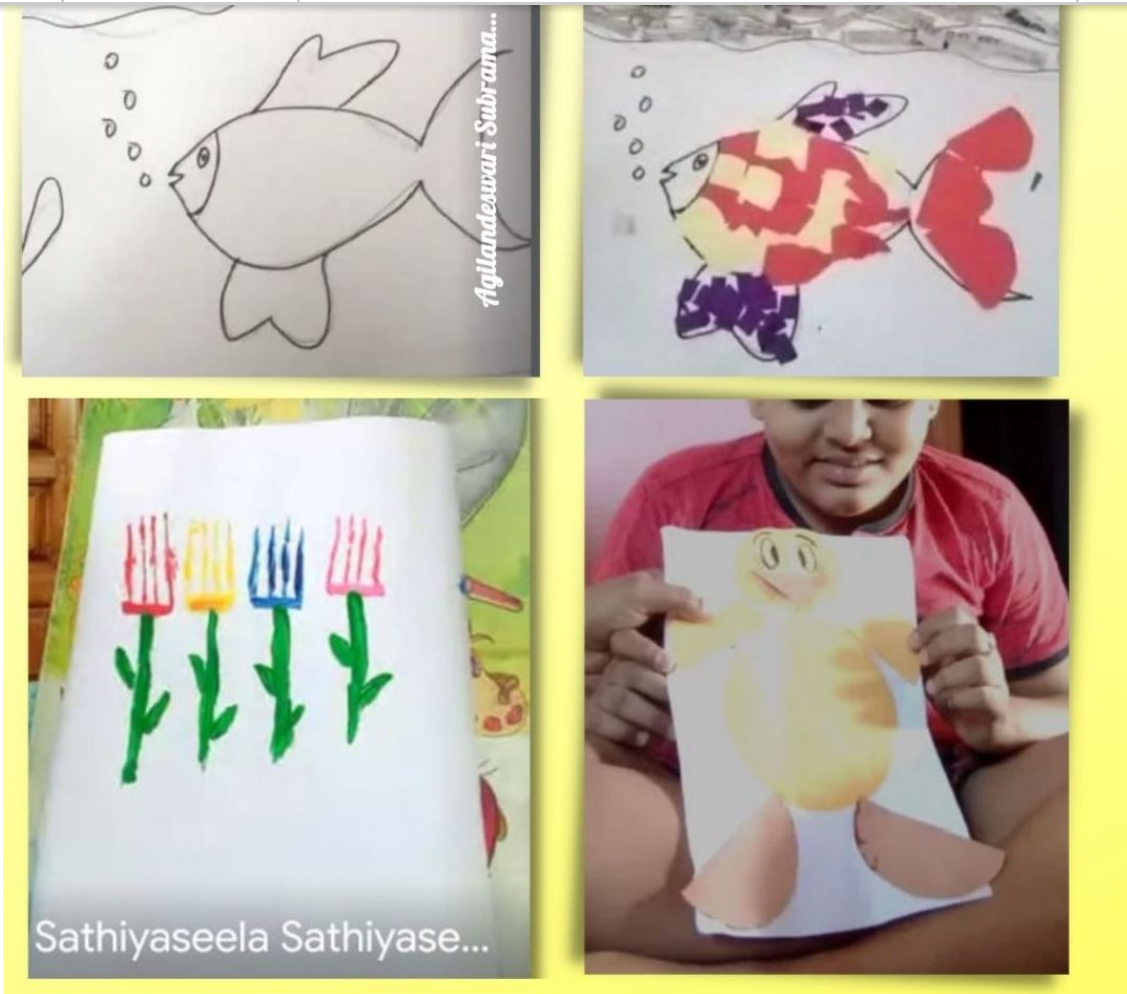

35% of parents and families of our students

30 of our adult students who are eligible for vaccine

... And the relief measures continue.

Summer Camp!

All of May, our children attended an online summer camp, where they played, listened to stories, coloured, created, and generally had a lot of fun, as did we. Some glimpses.

Livelihoods training

Over the past year, we have been evaluating different livelihoods options for youth with disabilities. What we've learnt is that most of our youth, from rural areas, will be served well by opportunities in the farm/agri sector. We took a step closer to making this a reality, by training them in organic dehydrated produce preparation in partnership with social enterprise Gratitude Farms. Eight of our youth learnt to wash, sort, cut, load, unload, and pack produce for the market. We look forward to more youth joining our livelihoods mission.

Autism Awareness Month Discussion

Satya Special School hosted an interesting discussion celebrating autism and various facets surrounding life with autistic people. It was an energizing discussion, and we hope to host many such programs in the future!
